REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed invention of an inhaler comprising: a cyclone configured as a substantially cylindrical cavity provided with a tangential inlet and an axial outlet arranged to eject an aerosol of medicament into the chamber, the cylindrical cavity having a diameter between about 4 and 10 mm; a piston pump for providing the airflow of repeatable volume and velocity to the drug dosing device, the piston pump comprising a plunger received in a pump cylinder and a spring so that air is drawn into the cylinder when the plunger is withdrawn therefrom against the bias of the spring; and a breath-actuated mechanism which retains the plunger in a retracted position against the biasing force of the spring until the medicament is to be delivered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Arrangement of the Specification
